(CONCLUSION NEXT WEEK)

It's True, Nevertheless.
It's hard for some people to believe that a man may be a success and die poor as well.—Detroit Free Press.

The Story of Medicine.

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery" for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its makeup.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the highest scientific endorsement from the leading medical experts, chemists and writers on medicine. It is the only medicine that has been recommended by the very best medical authorities for the diseases for which "Golden Medical Discovery" is adapted.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From this time on, the book will be sent from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhs of the throat, bronchitis, croup, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or long-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

Hoarding Money--The Risk

The newspapers almost daily contain accounts of robberies and it is usually money that the robbers are after and get. They know that people fearing that financial institutions are not sound, are withdrawing and hoarding their savings. Just recently a couple near Canton who used a tile opening in the cellar for a bank found several hundred dollars of their savings gone. Such instances are many, and while it is impossible to estimate how much hoarded money is lost, destroyed or stolen, yet it is safe to say that it far exceeds all the money lost by the failure of financial institutions.

Money deposited with this Company is secured by first mortgage of real estate, a security as sound and lasting as old Mother Earth herself.

Eyes and Their Relation to Health

If you had been told a few years ago that eye strain was the cause of not only eye trouble, but Epilepsy, St. Vitus' Dance, Vertigo, Nausea, so-called Valvular Heart Disease, Spinal Curvature, Headache, Hysteria, apparently stupid children, incorrigible children and adults, Insomnia, Impaired Memory, Stomach, Liver and Kidney Troubles, all Obsolete Nervous Affections, as well as troubles peculiar to women, you would have thought it ridiculous. If you had been told that relief and permanent cure could be effected by properly fitted glasses, together with instructions as to diet, habits, etc., and without the use of drugs you would have declared it impossible. Many people do not believe it yet, but that of course does not alter the fact that such is actually the case. Facts are stubborn things and are in no wise affected by our attitude toward them. It is always wise to investigate before condemning, and I can prove every assertion made.
